## STRATEGIC OBJECTIVES

- Strengthening the principle of partnership with the environment to develop training programs
- Promoting the culture of entrepreneurship and supporting graduates employability

- Strengthening the role of the university in the production and transfer of knowledge and the development of skills for the benefit of the society
- Promoting scientific research and innovation in response to national and international priorities
- Valorizing research results

- Developing and implementing internal and external quality assurance
- Promoting digitalization and developing e-administration

- Improving the national and international visibility of the university
- Strengthening scientific and cultural cooperation with renowned universities and research centers

- Providing an innovative and engaging academic environment that fosters inclusion and strengthens the spirit of leadership and creativity
- Improving infrastructure and work conditions

# Internationalization

# Internationalization strategy

In Tunisia, the internationalization of higher education and research institutions has emerged as an obligation in a globalized context resulting in a process aiming at enabling universities and institutions to achieve their strategic objectives and fulfill their missions of teaching, research and services to the community.

## Internationalization strategy

### Vision

A solid and responsible internationalization  
accessible to all

advocating success

promoting openness and acceptance of the other

aiming at a better scientific response to societal  
challenges

and allowing a better visibility of the University.

# Strategic orientations

## Developing accessibility and improving communication

### Strategic objectives

1

To facilitate the procedures and to offer digital solutions to internationally related projects for different audiences

2

To enhance internal communication about internationalization to increase the interest of the whole university community

3

To facilitate the access to mobility for students, academic staff, and administrative staff with respect of equity and to give chances to those with disability

# Strategic orientations

## Enhancing the number and the quality of partnerships

### Strategic objectives

1

To create and to manage with efficacy exchange programmes

2

To expand the international network of contacts and partnerships, (with European, African and Asian universities)

3

To motivate international research projects, to support innovation and technology transfer

4

To improve gradually the internationalization of training with a special work on English language trainings

# Strategic orientations

## Promoting visibility and serving the world community

Strategic  
objectives

1

To increase the proportion of foreign staff and students

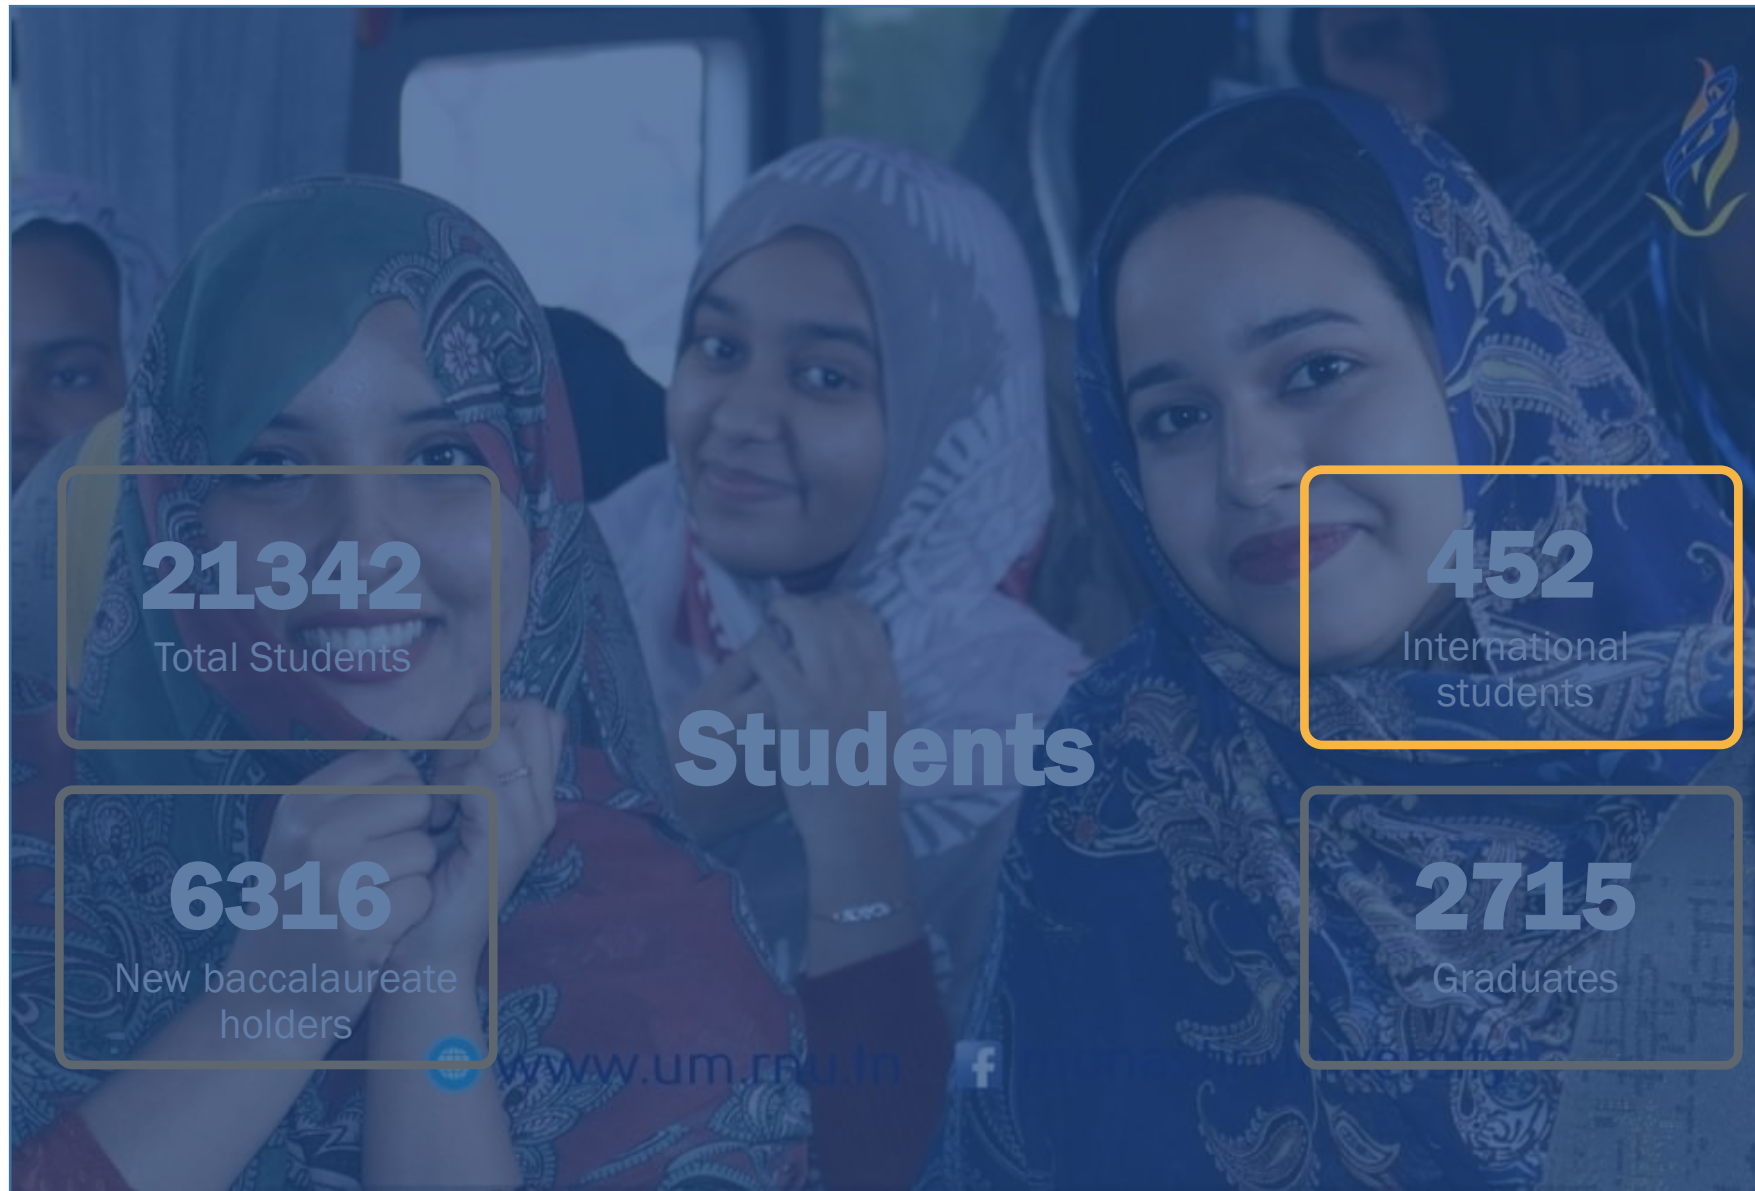

2

To improve the academic reputation of the university

3

To promote international initiatives that respond to the 17 SDGs
